

## 2008 ASAA Triple Crown Award

The ASAA instituted a Triple Crown Award sometime around 1995. The association wished to recognize the best all around male and female archer each year. It was decided to use the 3 state championships as the basis for this determination; those being the indoor, outdoor and the field tournaments. The divisions would be Olympic recurve, compound and barebow for a total of 6 categories.

To be eligible, the archer must shoot the adult senior distances and shoot in all three championships. At each tournament the archers were ranked according to their scores with the highest score being assigned a value of 1, next highest a value of 2, etc. Each archer then would have 3 values, one from each tournament which then were added to obtain the archers overall ranking. The best overall ranking score would be a 3 meaning the archer was #1 ranked in each tournament.

Attached is a list of the archers that shot in both the state indoor and outdoor championships and are in the running for the 2008 Triple Crown. Their cumulative ranking points are given. ***They still need to shoot the state field championships in October to be eligible.*** For those archers that did not shoot both championships so far this year, they should shoot the field tournament and get ready to compete in all three tournaments in 2009.
