WALLBANGER

ADJUSTABLE DRAWSTOPS

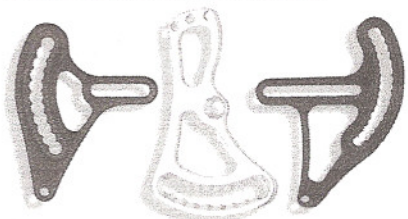

A drawstop system that will give you increased control over several factors that affect accuracy.

Made For HOYT and PSE Bows

SOLID STOP - achieve a consistent draw and anchor point, every time, even on up and down hill shots - ideal when using a back tension release.

ADJUSTABLE LET OFF - For cams and wheels with draw length modules, the let-off can be precisely adjusted restricting the cam rotation with the Wallbanger.

- Easy to install
- CNC machined aluminum anodized in a black or clear finish
- Packaged in pairs with all the necessary installation hardware

LESS CAM ROTATION - By eliminating over-rotated cams you will have a more stable set up and a more consistent arrow launch.

EXACT TIMING - Checking and setting the timing can now be done on-the-spot without complicated devices. Simply see if both stops hit the bus cable simultaneously

BONUS ARROW SPEED - Wallbangers can increase arrow speed 5-10 feet per second.

CenterShot
SPREADER BAR

- Eliminates the need for a cable guard
- Eliminates bow torque
- Improves accuracy
- Slight increase in arrow speed
- Easy to install

Men's Compound Team Champions

AND THEN... THERE WAS "LIGHT"

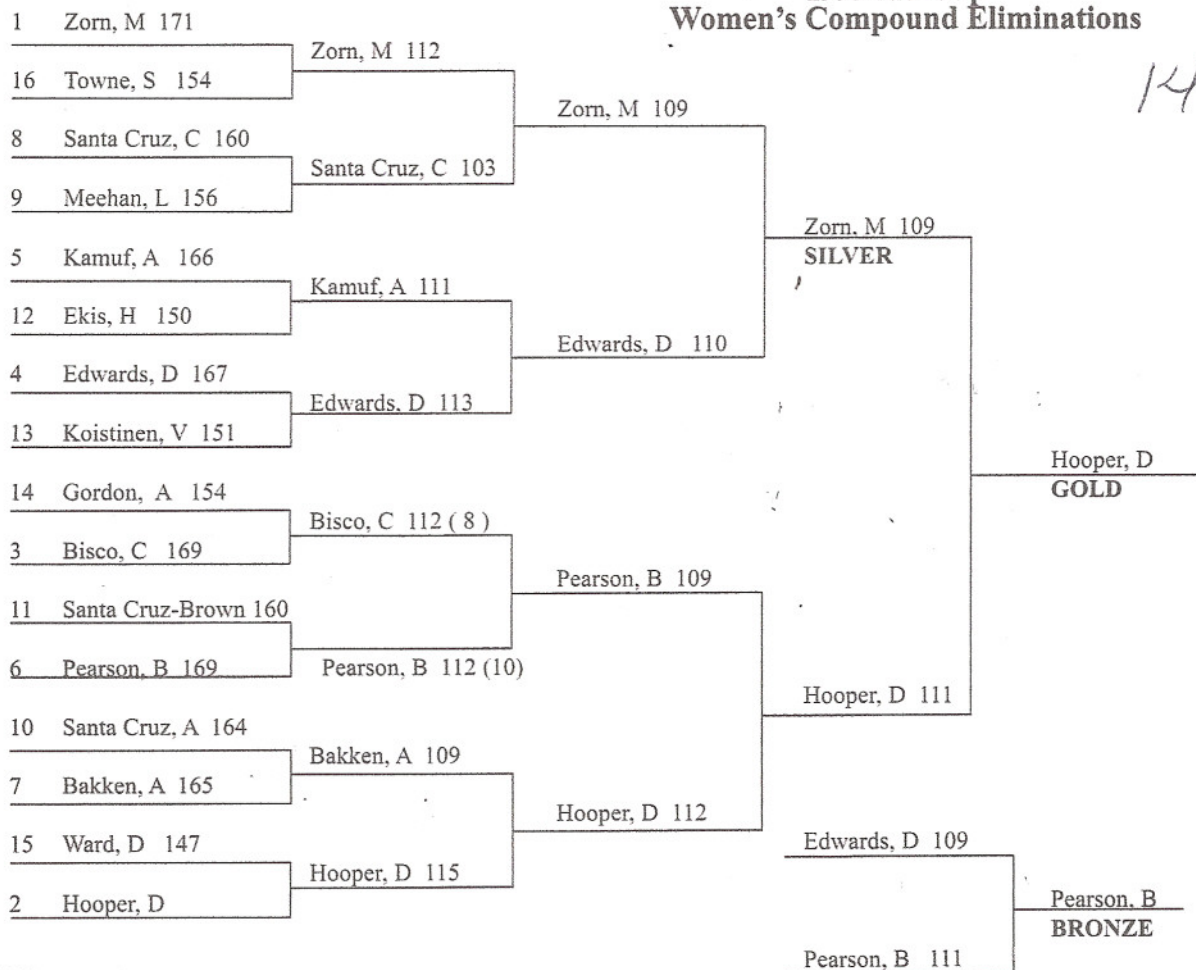

NEW FOR '99! The Pro Series from Toxonics is the "lightest" compound target sight on the market! This will come in handy when you want to save your "energy" for that perfect shot.

FEATURES	BENEFITS
• 3rd Axis Micro Drive Windage	- Light, Compact Locking Unit
• 8 Ounce Mass Weight	- Lightest Compound Sight Available
• Quick Detach Block	- Ease of Travel; Spare Blocks
• 3rd Axis Level	- For Scope/Bubble Shooters
• Glider Pad	- Ultra Smooth Adjustment; Vibration Dampening; Eliminates Aluminum-on-Aluminum Wear
• Common Head Size	- One Allen Wrench Adjustability
• Laser Engraved Scale	- Will Not Fade/ Wear Off
• 10 Click Compatibility	- Compatible with Computer Generated Yardage Strip
