

# Discover Archery!

*...and get some cash!*

National Partnership NADA has joined NRPA in a National Partnership to assist in setting up community archery programs called "After School Archery Program."

**CASH GRANTS!**  
This partnership includes cash grants for equipment or program materials to non-profit rec agencies starting new ASAP archery programs.

Contact NRPA to apply for an archery grant online:  
[www.nrpa.org/archery](http://www.nrpa.org/archery)

Archery is loved by young and old, and it's never been easier to start a program within your agency.

NADA, a non profit association of certified archery instructor and coaches, can provide instructor training for your staff, referrals to local certified instructors, program equipment, and guidelines to make your archery program score a "10".

NADA can also provide the program curriculum that fits within your activities schedules, and can assist you in providing layout diagrams for those agencies wanting to build a permanent community archery range.

Start an archery program today! It's safe, it's fun, and you can get the cash you need to help get it started.
